

Demonstration of Proposed Features

Date	1 October 2026
Team ID	6ab501466f290be8a6b4f5d3
Project Name	ComicCraft: AI Comic Story Creator
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	AI Story Generation	Takes the idea, hero, setting, tone, art style and panel count and generates a structured comic script (title, narration, dialogue, image prompt) in JSON using the Gemini text model.	Implemented	Yes	Validates required fields and retries on failure.
2	Panel Image Generation	Creates one illustration per panel from its image prompt using the Gemini image model.	Implemented	Yes	Shows a placeholder if the API fails.
3	Comic Page Layout	Combines the title, image, narration and dialogue into one comic page using Pillow.	Implemented	Yes	Pages shown as a live preview in the app.
4	PDF Export & Download	Puts each comic page into a PDF with FPDF2 and offers a Download PDF button.	Implemented	Yes	Saved with a timestamped file name.
5	Redraw Panel Button	Regenerates a single panel image without rerunning the whole story.	Implemented	Yes	Original feature of the project.
6	Panel Count Slider (3-8)	Lets the user choose how many panels the comic will have, from 3 to 8.	Implemented	Yes	8 panels gives 8 pages in the PDF.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
