

Project Demo Planning

Date	1 October 2026
Team ID	6ab501466f290be8a6b4f5d3
Project Name	ComicCraft: AI Comic Story Creator
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the team and ComicCraft, and explain the problem: creating a comic needs story writing and drawing skills and a lot of time.	2	Keerthiga V (Team Lead)
2	Solution Overview & Architecture	Explain how Streamlit, the Python modules and the Gemini text and image models work together, from user input to PDF download.	2	Charumathi S
3	Story Generation Demo	Enter an idea, hero, setting, tone, art style and panel count, then show the generated comic script.	2	Jayapriya G
4	Image, Layout & PDF Export Demo	Show panel images being generated with the progress bar, the comic page preview, and the Download PDF button.	2	Nathisha K
5	Redraw, Panel Slider & Error Handling	Redraw a single panel, change the panel count (3-8), and show the error message for a wrong API key.	2	Gajalakmi B
6	Conclusion & Future Scope	Summarise results, limitations (API quota, character consistency) and future scope, then open for questions.	1	Keerthiga V (Team Lead)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Team Lead introduces the team, the project and the problem it solves.
2	Solution Overview	Walk through the architecture and the tools used.
3	Live Feature Demonstration	Generate a comic live, then show Redraw, the panel slider and PDF download.
4	Q&A Session	All team members answer questions from the reviewers.
